School Highlights

Second Grade has been listening to Charlotte's Web while learning about characters, setting, plot and of course the value of true friendship. The students created their own Charlotte spiders and journaled about the story. Hanging our spiders around the class makes the room feel both frightening and pleasant...just like Charlotte!

*"It is not often that someone comes along who is a true friend and a good writer."
— E.B. White, Charlotte's Web*

Third Grade has been *very* busy in October! The children have been learning their 2 and 3 multiplication facts, practicing addition with regrouping, and feverishly competing on the First in Math website. They have written seasonal Autumn poems, and studied the travels and life of Christopher Columbus while learning map skills. The Joyful Mysteries of the Rosary have been the topic of many discussions in recent religion classes too!

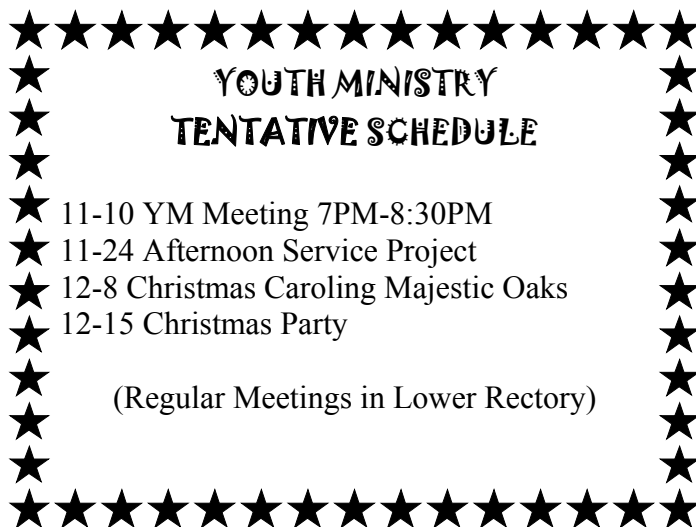

OLGC Art Classes have been bursting with creativity! Kindergarten has been studying primary colors and the color wheel - all hands-on with finger paints! They also made some spooky skeletons and skulls. No scissors allowed in third grade - children worked with a variety of torn paper to create their masterpieces and study neutral colors. Fifth grade is on the move studying motion working with oil pastels, and silhouettes. Now you see it now you don't - seventh grade has been having fun creating tricky optical illusions.

DISPOSABLE CHILDREN?

"The so-called right to abortion has pitted mothers against their children and women against men. It has sown violence and discord at the heart of the most intimate human relationships...It has portrayed the greatest of gifts - a child - as a competitor, an intrusion, and an inconvenience. It has nominally accorded mothers unfettered dominion over the independent lives of their physically dependent sons and daughters...The right to life does not depend, and must not be declared to be contingent, on the pleasure of anyone else, not even a parent or a sovereign."

— Mother Teresa 1994
